Complete Thesis and Dissertation Submission Deadline for Graduation

In order to fulfill a part of graduate qualifications, it is a must that the students present an oral (final) examination to the thesis committee. The students must show their understanding, insight knowledge and skill of expertise on the research topics so that the committee can make the judgement to grant the pass to the students. The theses may be minor amended and have to be complete within 2 weeks (10 working days) after the date of examination. For major revision, the theses must be submitted by the last day of graduation package submission.

The thesis to be on-line submitted to the Academic Affairs has to be approved by the main advisor with the result of plagiarism check be less than 25% and specified the public disclosure if needed.

Failure to submit by the deadline results in the next semester graduation and the students must enroll for thesis or dissertation credit in the next semester.

Announced on April 10, 2020
