

SCG Chemicals Co., Ltd. is a wholly-owned subsidiary of The Siam Cement Public Company Limited (SCG). SCG Chemicals was established as a holding company for chemicals business – one of the 5 core businesses of SCG.

Starting with Polyethylene plant in 1989, SCG Chem has expended and become a key industry leader in the Asia-Pacific region with integrated world-scale upstream, intermediate, and downstream operations in Map Ta Phut, Rayong Province. SCG Chem offers a full range of petrochemical products including olefins, intermediates such as Styrene monomer, PTA, and MMA, and downstream petrochemicals such as Polyethylene, Polypropylene, Polyvinyl Chloride, and Polystyrene resins.

Each of SCG Chemicals product lines is operated as a separate business unit, several of which are managed through joint ventures with Thai and multi-national partners, including global petrochemical companies, namely Dow Chemical Company of the United States (for LLDPE plant), Mitsui Chemicals, Inc. of Japan and Mitsubishi Rayon Co., Ltd. of Japan.
